

Certificate of Internship

To Whom It May Concern,

Mr. Nam Huynh has carried out an internship period at InSolution Oy between 17.1.2019 and 31.8.2019 with job title Trainee Automation Engineer. Among other things Nam's work has included dealing with customer projects and internal R&D projects, automation applications engineering, general software development, hardware testing, documentation and other individually addressable tasks.

Nam has carried out his work conscientiously and carefully. He has been able to solve problems and study different areas of automation technology independently. He has found creative solutions to different problems and been diligent in his working. I'm glad to give my recommendations to Nam.

10 December 2019, Tampere, Finland

Heikki Lehikoinen (InSolution Ltd representative)
